

Seasons: Ever changing, Forever fearless

rvatech/Women

OCTOBER 18, 2019 | RICHMOND CONVENTION CENTER

ABOUT US

Central Virginia's premier technology conference, hosted by RVATECH's Women in Technology, brings together professionals on a wide range of technology topics to learn, network, and collaborate.

OUR MISSION

Despite a strong interest and real talent by women; men continue to dominate the technology field nearly 4 to 1. rvatech/Women seeks to highlight, inform and empower Virginia's current and future women in STEM. Since beginning in 2014, RVATECH strives to provide an exceptional technology conference experience for all participants: men, women, students and senior executives, practitioners and technology enthusiasts.
